AI - 08 Aug 2023 (Reviewed 7 days after purchase)

Very happy with my purchase - bought this specifically as I have an oldish dog who sometimes messes on the rug during the night. The idea here is simply to be able to rinse off the rug without the hassle of using a carpet cleaner etc It seems to be good quality which is nicely finished off although I doubt it can really be called reversible as the underside has 2 thick turned under edges which wouldn't look good if the rug were reversed plus could possibly cause somebody to trip due to the increased thickness of the edge.
